KIIT Chapter

MICROSOFT STUDENT COMMUNITY, KIIT CHAPTER BRINGS FORWARD OUR BRAND NEW EVENT "FRONTEND WITH BENEFITS ~ CSS & CHILL".

Frontend With Benefits is a **24-hour event** in which you must develop a frontend for a website using the frontend coding languages you are familiar with. Participants can put their knowledge to use by changing the color and theme or ui/ux of the template as per your choice and creativity.

Auum is a startup working out of Bhubaneswar, focused on creating promising & new applications of emerging technologies for consumers and enterprise. They are recognized by “Startup India” initiative, DPIIT and are incubated by Atal Incubation Centre Nalanda.

WALKTHROUGH OF WEBSITE

MAIN PAGE

You are required to make a home page and options like about us, products and services, image gallery, testimonials and contact us.

Overview

1. The Home page should contain the about section and their mission.
2. The next page should contain the products which are to be sold by them.
3. The third page should contain a recruitment page which will inform everyone regarding new vacancies in the company.
4. Nextly the research work of the company should be added.
5. The last page should contain the contact details of the company

TEMPLATE 4

TEMPLATE WEBSITE:

<https://ash1912.github.io/MSC-TEAM-3-AUUM-TEMPLATE/>

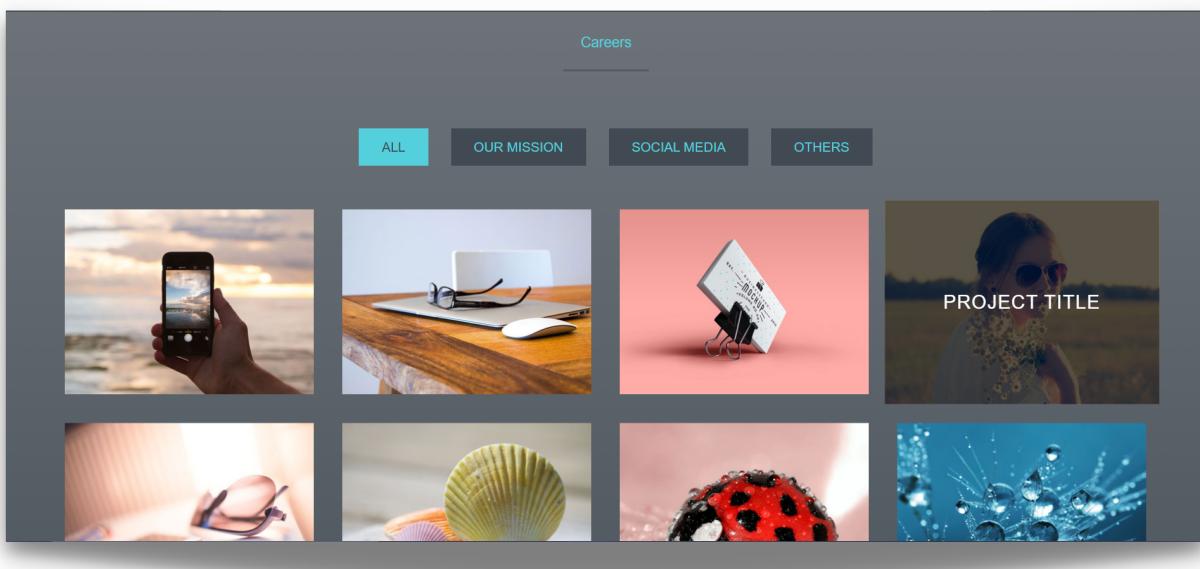

GITHUB LINK:

<https://github.com/MSCKIIT/Frontend-with-Benefits-AUUM-Template-4>

The image shows the "About Us" page of the AUUM template. The background is a light blue color. At the top, there is a header "About Us" followed by a horizontal line. Below the line, there is a photograph of a bartender with a beard, wearing a white shirt, standing behind a bar counter and pouring a drink. To the right of the photo, there is a block of placeholder text: "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis sed dapibus leo nec ornare diam. Sed commodo nibh ante facilisis bibendum dolor feugiat at. Duis sed dapibus leo nec ornare diam commodo nibh." Below this text, there is another block of placeholder text: "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis sed dapibus leo nec ornare diam. Sed commodo nibh ante facilisis bibendum dolor feugiat at. Duis sed dapibus leo nec ornare diam commodo nibh." At the bottom right of the page, there is a dark blue "CAREERS" button.

TEMPLATE 4

A light blue contact form section titled 'Get In Touch'. It features a horizontal line separator above two input fields: 'Name' and 'Email'. Below these is a larger text area labeled 'Message'. At the bottom is a dark blue rectangular button with the text 'SEND MESSAGE' in white capital letters.

Instagram:

<https://www.instagram.com/auumplatforms/>

Product:

A promotional graphic for "Swasner PPE". It features two versions of a white, hooded garment with a face mask attached. The left version has "AUUM" printed on the chest. The right version is dark grey. The background is black. At the top, the text "Swasner PPE" is written in a teal, sans-serif font. Below it, in a smaller white font, is the tagline "End of Sweating with the modern ventilated PPE." Underneath the tagline, the original price "6499/-" is crossed out in red, followed by the discounted price "5499/-*". Two buttons are at the bottom: a teal button on the left labeled "Pre-Order Now" and a white button on the right labeled "Know More". A small note at the bottom center states "*special price for first 100 pre-orders only".

RULES

Events are fun but only with rules.
So, here are they for our event -

- Participants must have their own GitHub account where they will fork the repository assigned to them.
- A basic template will be provided to the participants on which they have to work on.
- Any tech stack of your choice can be used.
- Only individual participation is allowed.
- The emphasis of the competition is to create an original website. So, anyone submitting plagiarised code will be disqualified immediately.

- Any team found cheating, interfering with another team or the competition in any form will be heavily penalized/disqualified from the event.
- - Better UI/UX, Better usability, Better features = More points
- - Participants can use any hosting service (GitHub Pages, Vercel, Netlify etc.)
- - Participants will be given a form where they have to submit their work.
- - GitHub repo link should be submitted and the project repo should be public.
- - The hosted site details (site link) should be clearly mentioned.
- - The submission form should be filled with correct details for us to track the submissions correctly.

Workflow

If you're not comfortable with command line, [here is the download link to GitHub Desktop] (<https://desktop.github.com/>).

If you don't have git on your machine, [install it] (<https://help.github.com/articles/set-up-git>).

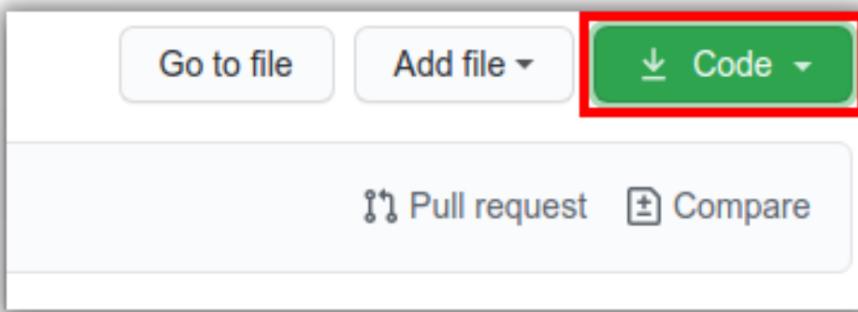

Fork the Repository

Fork this repository by clicking on the `Fork` button on the top of this page. This will create a copy of this repository in your account.

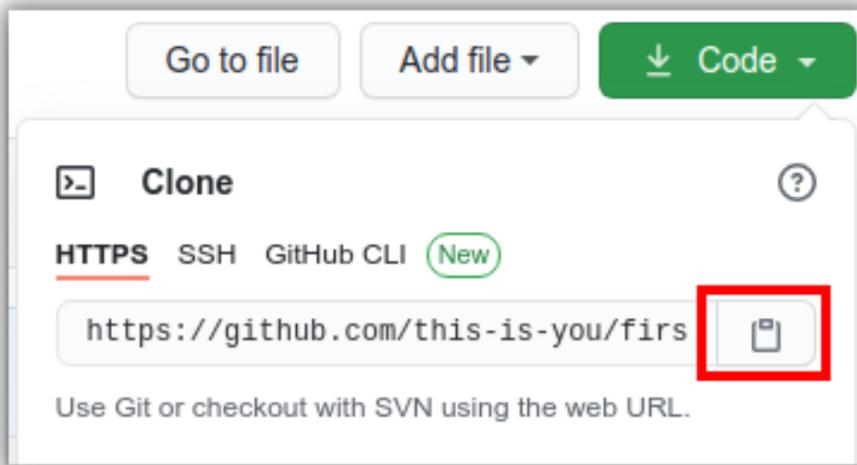

Clone the Repository

Clone the forked repository to your machine. Go to your GitHub account, open the forked repository, click on the `Code` button and then click the `Copy to Clipboard` icon.

Open a terminal and run the following git command:
`git clone https://github.com/<your_username>/template_repo.git`

Make Necessary Changes and Commit the Changes

Now, after making the changes, add all the files which you have modified using the `git add` command:

```
git add .
```

Now commit those changes using the `git commit` command:

```
git commit -m "<Any_Message>"
```

By replacing `<Any_Message>` with anything of your choice.

Push Changes to GitHub

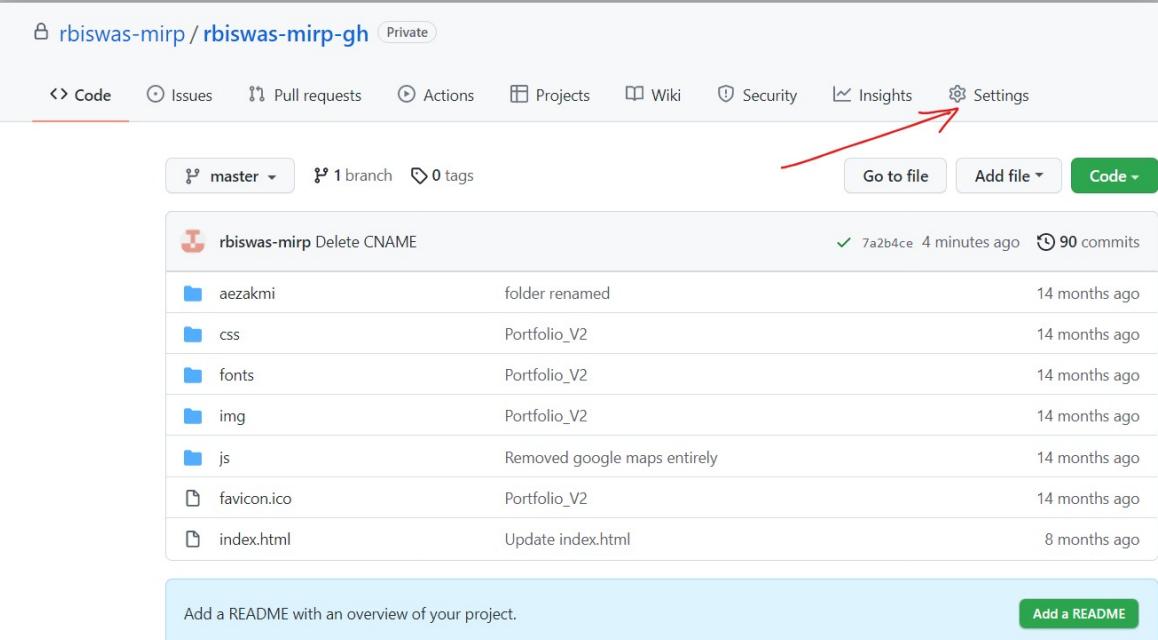

Push your changes using the command `git push`:

```
git push origin <add-your-branch-name>
```

By replacing `<add-your-branch-name>` with the name of the branch (`master` in our case).

Hosting your site on GitHub

Click on the repository settings

A screenshot of a GitHub repository page for the user 'rbiswas-mirp'. The repository name is 'rbiswas-mirp / rbiswas-mirp-gh' and it is marked as 'Private'. The top navigation bar includes links for Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. A red arrow points to the 'Settings' link. Below the navigation, there are status indicators for the master branch (1 branch, 0 tags), a commit history section, and a button to add a README.

rbiswas-mirp / rbiswas-mirp-gh Private

Code Issues Pull requests Actions Projects Wiki Security Insights Settings

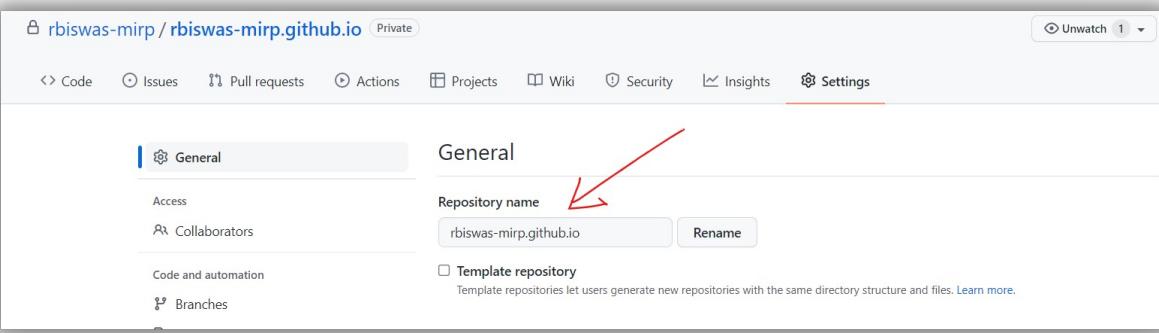

master 1 branch 0 tags Go to file Add file Code

rbiswas-mirp Delete CNAME

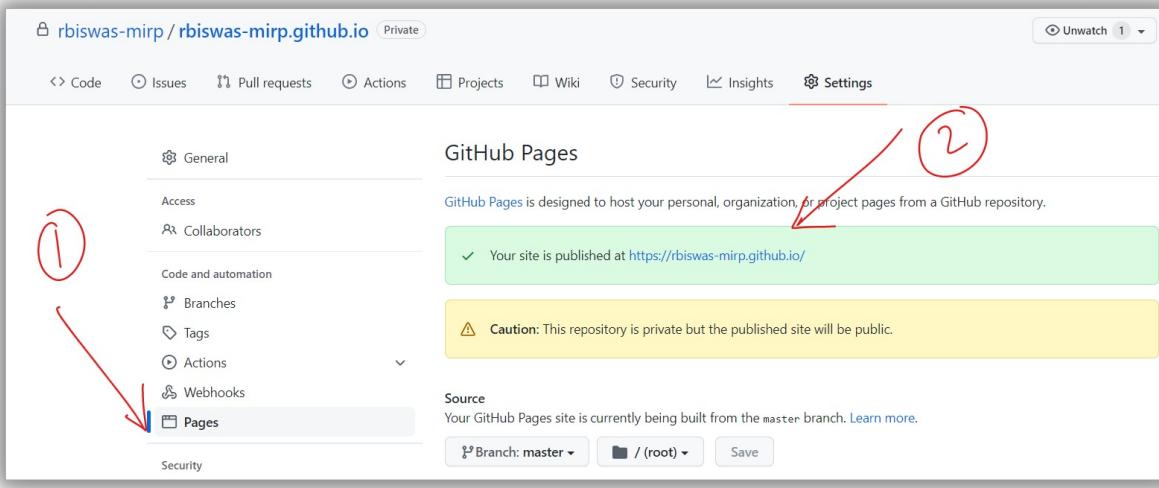

aezakmi	folder renamed	14 months ago
css	Portfolio_V2	14 months ago
fonts	Portfolio_V2	14 months ago
img	Portfolio_V2	14 months ago
js	Removed google maps entirely	14 months ago
favicon.ico	Portfolio_V2	14 months ago
index.html	Update index.html	8 months ago

Add a README

Click on `Repository name` and change the name of the repository. Make sure you change the repository name to **github-username.github.io** (replace github-username with your own GitHub username).

Click on `pages` from the left tab. Your site should be automatically published (if not, give it a few seconds).

Submission

All the work you have done is useless until you submit it. You will be given a form where you have to fill the following details correctly.
